1. Force and Motion

1.1. Newton's Law

Newton's 1st Law of Motion:

Object remains at rest or moves with constant velocity unless an external force is applied

Newton's 2nd Law of Motion:

$$F = ma$$

Newton's 3rd Law of Motion:

If object A exerts a force on object B, then object B must exert a force of equal magnitude and opposite direction back on object A.
